REMARKS

25X1

Between 21 and 23 February 1952, there was no air activity at Parchim airfield. No aircraft were observed on the landing field. The board fence along the highway to Ludwigslust was completed so that the field could no longer be observed from this side. The fence along the other edges of the field was still under construction.

25X1

\* [ ] Comment. A fighter regiment is believed to be stationed at Parchim airfield. There are no indications that this regiment has been transferred. It is believed possible that the aircraft or at least some of them were parked in a camouflaged position in the woods on the northern border of the field.
